COMPETITION FORMAT AND RULES

SKELETON

As of January 2018

OLYMPIC COMPETITION FORMAT

There are two skeleton events at the PyeongChang 2018 Olympic Winter Games:

- Women: Sled maximum weight: 35kg / 77lbs , Athletes and equipment maximum weight: 92kg / 203lbs
- Men: Sled maximum weight: 43kg / 95lbs, Athletes and equipment maximum weight: 115kg / 253lbs

If the combined weight of the sled and the athlete with his equipment exceeds 115kg (women: 92kg), the weight of the sled alone may not exceed 33kg (women: 29kg).

Both events are held over four heats on two consecutive days, with two heats per day. Results are calculated by adding the times of all competition heats together with the lowest aggregate time winning. Only the top 20 athletes will take part in the last heat.

At least two heats are needed for a competition. One or two of the four heats may be cancelled due to weather. In the programme, there are six official training heats to be held over three consecutive days for each of the events, but some of them could be cancelled due to bad weather. Athletes must have completed at least two valid practice heats to qualify for the competition. NOC entries are limited in training and competition based on a quota system.

DIFFERENCES BETWEEN THE IBSF WORLD CHAMPIONSHIPS AND OLYMPIC WINTER GAMES

There are no differences in competition format between the IBSF World Championships and the Olympic Winter Games. But at the IBSF World Championships the qualification criteria are different, resulting in more participating sleds. And the world junior champion receives an extra wild card.

CHANGES SINCE THE SOCHI 2014 OLYMPIC WINTER GAMES

Changes have been made following the Sochi 2014 Olympic Winter Games as to test competitions and the international training period, the starting order system and timing equipment.

Test competitions and international training period

Under the revised rules, the organisers of the Winter Olympic Games to be staged on newly constructed tracks shall offer a number of at least 40 training and competition runs prior to the Games to all members. These training runs and competition runs must be offered in the form of two or more international training periods, scheduled throughout the season.

SPORT RULES AND PROCEDURES

Equipment

The skeleton sled itself measures between 800 and 1200 mm in length, weighing from 70-95 pounds (33-43 kg) depending on the athlete's body weight. The sleds are made of steel and various types of fibres. Helmets are mandatory. A skin-tight rubber suit is used to increase aerodynamics, and shoes have special spike plates to help the 50-metre start-run.

Race procedure

Athletes ride head first and face down, hands and arms tucked close to their bodies. The athlete negotiates the curved track using subtle shifts in body weight and positioning, all while reaching speeds of 110 to 145km/h (70 to 80mph).

Starting order:

For training

There is a draw for the starting order of sleds for the first two training days. The starting order for the third training day is determined by IBSF Discipline Ranking.

The starting order of NOCs is determined by a draw, and sleds within each NOC start in the order listed on the entry list submitted by the team captains before the draw.

On the first training day, sleds will start in the order drawn in both heats, and during the second training day they start in reverse order of the draw. The order of sleds within each NOC is the same on both days.

For competition

The 10 best-placed athletes in the IBSF Discipline Ranking List who are present are drawn for the assignment of starting numbers 6 to 15. The starting numbers 1 to 5 are assigned to the remaining athletes (with points) by draw. All other athletes start according to the ranking in the IBSF Discipline Ranking List from starting number 16 to the end. During the second heat, the best 20 ranked sleds from the first heat will start in reverse order, followed by the other sleds (21 to the end). During the third heat sleds will start in the ranking order after two race heats, and in the last heat only the best 20 ranked sleds will start, in reverse order.

Timing

Two independent timing systems, each consisting of at least one time measuring device, complete set of light beams and independent power supply, must be available and in operation during a competition (A and B systems). The time of day of both timing systems (A and B systems) must be synchronised and must provide accurate timing of 1/100 of a second. In case of failure of the A system it must be possible to switch to the B system without time delay. After this, the times measured by the B system will be used for the continuation of the competition.

Forerunners (also called pilot sleds)

The jury determines the number of pilot sleds. The organiser is obliged to provide a minimum of three pilot sleds. Before skeleton races, only skeleton sleds should be used.

Tie-break rules

Sleds sharing the same aggregate time are tied, and share the same rank.

Penalties/disqualification rules

During the heats, an athlete may be disqualified for various reasons. The most common are overweight, runner temperature or late start.

All medal-winning sleds will be checked immediately after the final heat. Upon the findings and recommendations of the Materials Commission, the jury may disqualify an athlete after the end of the competition.

Protests/appeals

Protests must be made to the Jury. The rules state that verbal announcement of the protest must be made within five minutes after the end of the heat in which the incident occurred. Additionally, the grounds for the protest must be submitted in writing to the Jury no more than 20 minutes after the conclusion of the race.
